STATE TROOPS LEAVING TULSA RUINS

MANAGERS WASTE 401 SENIORS AT O. U. THIS YEAR

More Than 50 Percent of Waste Attributed to Executives.

(By the Associated Press) ST. LOUIS, Mo., June 3.—Responsibility for more than fifty per cent of the waste in industrial processes which is causing enormous annual losses to the nation, can be placed at the door of the management and less than fifty per cent at the door of labor, declared a report to the American engineers in councils committee on elimination of wastes in industries, made public today at a meeting of the council's executive board. The committee was appointed by Herbert Hoover, secretary of commerce.

The report showed that the margin of unemployed amounted to more than a million men. That high labor turnover was a round index of one of the commonest wastes, and that waste of time and energy and money through duplication and estimates and bids in building trades ran into millions of dollars annually.

Both employers and employees restricted output, it was said. Both capital and labor are blamed for existing abuses, but the annual losses through waste by conflicts between them is much less than popularly supposed.

Means of regulating employment in the principal industries were urged and a nation wide plan of co-operation between the government, the public, trade associations, the industries, labor, banks and engineers, was outlined.

DOCTOR DAMAGES CHESTER'S CHANCE

Dr. Ridge Insists the Accused Has no Hole in His Head.

(By the Associated Press) KANSAS CITY, June 3.—Indications were at noon today that evidence in the case of Densel Chester, on trial charged with the murder of Miss Florence Barton, would be completed this afternoon and that Judge Ralph Latshaw, would give his instructions to the jury.

(By the Associated Press) KANSAS CITY, Mo., June 3.—At the request of the defense, Dr. Frank I. Ridge, a physician on the staff of the general hospital here, examined Densel Chester's head in front of the jury this morning and said he was unable to find a "hole" which the defense alleges has been there since Chester was beaten by detectives on a railway train last fall. Chester is on trial for the murder of Miss Florence Barton, society girl, last fall.

"Is there a hole there?" asked Joseph Aylward, defense counsel, and the physician who was on the witness stand at the time felt the spot indicated. "No," said the witness. "I find a slight depression—very slight. I have as much depression in my own skull in the same place." "Could it have been caused by blows?" asked Aylward. "No," replied Dr. Ridge.

The doctor had been placed on the stand by the state. He told of examining Chester immediately after his return from Broken Bow, Nebraska, last fall to answer to a charge of murder. He said he found no bruises on Chester's head and body, except a small cut on his head and a blood shot condition of his eyes, which could have been caused from exposure. Chester walked unaided at the time. Dr. Ridge testified, did not complain of injury and as far as he was able to determine had nothing the matter with him physically.

John W. Farrel, a private detective, who said he saw Chester in Swope Park, the night of the murder between 11:30 and 11:45 was recalled to the stand. The defense attempted to shake his story of being in Swope Park, but Farrel insisted he was there.

Many has been the time when a dollar invested in a wad ad in the News has made it possible for a person to clear a thousand dollars on a farm sale.

Commencement Exercises to Be Held Sunday, Monday and Tuesday.

NORMAN, June 3.—(Special) Final plans for the twenty-ninth annual commencement exercises of the University of Oklahoma, when 401 seniors and graduate students will receive 405 degrees, have been completed and with the final examinations for the spring semester of the 1920-21 school year completed Friday afternoon, everything is now in readiness for commencement exercises and the annual spring home-coming of the 2346 Oklahoma alumni, Sunday, Monday and Tuesday, June 5, 6 and 7.

Rev. Charles Weith, pastor of the First Presbyterian church, Ardmore, will deliver the baccalaureate sermon in university auditorium at 10:30 o'clock Sunday morning.

Monday will be devoted to alumni home-coming events, including a polo game between alumni and the army team of the University of Oklahoma R. O. T. C. detachment, a baseball game between alumni, and faculty members, annual business meeting of the alumni association and election of officers, and business and social meetings of the reunion of the classes of '96, '01, '06, '11, '16 and '21. In the evening the annual commencement concert will be given in the university auditorium.

Dr. Robert E. Vinson, president of the University of Texas, will deliver commencement address at 10:30 o'clock Tuesday forenoon, following which 406 degrees will be conferred upon 401 seniors and graduate students of the University of Oklahoma.

According to figures prepared by George Wadsack, assistant registrar, Saturday afternoon, of the 405 degrees to be granted by the University of Oklahoma Tuesday, 181 will receive the bachelor of arts degree and 62 the bachelor of sciences, making a total of 243 degrees to be granted by the college of arts and sciences. Other degrees to be granted include 29 in engineering, 17 in fine arts, 17 in medicine, 13 graduate nurses, 29 in law, 42 in pharmacy and 15 in the graduate school.

Seventy-seven more degrees will be granted this year than during June, 1920, commencement exercises, or a gain of twenty-four and nine-tenths per cent. There were 324 degrees granted last June. Four students will receive two degrees this year.

Drainage of Katy Crossing Is Under Consideration Now

The Katy crossing on East Main street has been the cause of worry for some time to both the railway company and the street commissioners. Through the efforts of the Chamber of Commerce the division engineer of the M. K. & T. railway was brought to the city yesterday for the purpose of looking over the bad situation of the track.

It is believed that by raising the house track on the west side of the depot to the level of other tracks crossing the street that the drainage problem will be solved. Every time a hard rain comes the water collects at this place until it is almost impassable.

Mr. Banks, the division engineer, was of the opinion that the problem could be solved with little expense and trouble and promised to take the matter up with his company. The extra expense that his company would be put to in having this done will be very small, according to the engineer.

Large Crowd Attends Junior Class Play in Normal Auditorium

In spite of the bad weather conditions a large crowd attended the junior class play given in the Normal auditorium last evening. The play was all it was advertised to be and it was one of the best school plays ever staged in the city.

The nine principal characters were at their best and acted their parts like professionals. Miss Eloise Adams has had charge of instructing of the players and succeeded in making it a great success. The plot, which gave every character a chance to become conspicuous, was suited for a school play, this being one of the reasons for its success.

Those who took part in the play were Lester Sherman, Robert Moore M. W. Clary, Natalie Manville, Violin Knight, Leeteca Burris, Arthur Harrison, Moss Wimbish, Leah Rossell. The Ada High School orchestra furnished the music for the occasion.

Many has been the time when a dollar invested in a wad ad in the News has made it possible for a person to clear a thousand dollars on a farm sale.

THREE DIE IN AN OKLAHOMA MELEE

Two Negroes and White Man Killed in Knife and Gun Fight.

(By the Associated Press) OKLAHOMA CITY, June 3.—Charles Standier, negro and his son, Will, are in jail here today following a shooting and cutting affray last night which resulted in three deaths. No charges have yet been filed. Willis Sadler, negro, was stabbed to death and Claude Standier, son of Charles Standier, was shot by officers, who interrupted the fight. A. V. Wheeler, a white man was killed by a stray bullet. He was not involved in the melee.

Jefferson Davis Honored in South on Birthday Today

(By the Associated Press) MONTGOMERY, Ala., June 3.—The South of Sixties and its children dedicated today one of its most precious shrines, the first White House of the Confederacy.

Representatives of the state, who in 1861 withdrew from the union and fought through four years of war to maintain the confederate state of America, participated in the reopening and dedication of the old mansion in which Jefferson Davis, president of the confederacy, first took up his residence.

Services Here Sunday. The Confederate Veterans of Ada and Pontotoc county will hold services Sunday at the City Hall in honor of Jefferson Davis, only president of the Confederacy. The meeting will be held at 2:30 at which time Rev. C. C. Morris will deliver an address on the famous southerner. The public is invited to attend and hear Rev. Morris.

The veterans especially urge the attendance of all sons and daughters of Confederate veterans. It is often pointed out that Jefferson Davis, one of the big men of American history, is often not properly honored in many of our southern traditions.

Strike Settled. (By the Associated Press) GREENBAY, Wis., June 3.—The strike of 500 employees of a number of paper mills of this city was settled at a conference of mill officials and union officials last night, according to announcement today.

You will save money by reading the ads.

Last Minute Telegraph

(By the Associated Press) BARTLESVILLE, June 3.—It was announced today by the city of Dewey that the annual roundup, a Dewey celebration almost as famous in the southwest as the Cheyenne round-up in the northwest, will be revived this year. The date fixed for it is July 4, 5 and 6.

Miners Refuse Settlement (By the Associated Press)

LONDON, June 3.—The executive body of the striking coal miners today finally rejected the government proposal for a settlement of the coal strike.

More Irish Die (By the Associated Press)

DUBLIN, June 3.—Four constables were killed and five wounded in an ambush by two hundred civilians at ten o'clock this morning in Kylebeg Cross, county of Tipperary, says an official statement issued here today.

Marine Strike Holds (By the Associated Press)

WASHINGTON, June 3.—Negotiations between marine engineers and the shipping board for a settlement of the dispute on wages and working conditions, have been broken off, W. S. Brown, president of the marine engineers' beneficial association declared today.

Gas Now 17 Cents (By the Associated Press)

DENISON, Texas, June 3.—Gasoline at the local filling station was quoted at 17 cents a gallon today, a two cent drop from yesterday's prices.

KERNS WANTS TO SELL PICTURE RIGHT

(By the Associated Press)

ATLANTIC CITY, June 3.—Jack Kerens, manager of Jack Dempsey, world champion heavyweight, announced today that he would consider an offer for the sale of their interest in the motion pictures of the Dempsey-Carpenter champion ship contest. Dempsey and Kerens will have a fourth interest in the picture, another fourth will belong to the champion and Carpenter, while Tex Rickard, promoter of the contest, reserves the right to the other half.

THE WEATHER

Tonight and Saturday partly cloudy. Probably scattered thunder showers in east portion. Cooler tonight in east portion.

IMMIGRATION BILL GOES INTO EFFECT

Aimed to Keep Back Hordes of Undesirable Europeans.

(By the Associated Press)

WASHINGTON, June 3.—Immigration officials began today enforcement of the immigration bill restricting entry of aliens of three per cent of the population of their country in the United States at the time of the 1910 census. A rush of immigrants was expected during the next two months and officials were of the opinion that in the cases of most countries the bars would have to be put up long before the end of the year.

Only 20 per cent of the total quota of any given country can enter each month.

Jury Disagrees in Murder Trial of Young Cecil Burkett

KNOX, Ind., June 3.—The case of Cecil Burkett, charged with the murder of Bennie Slavin, was discharged by Judge Penicost in circuit court here today when it failed to reach an agreement.

The jury had been in continuous deliberation for more than 106 hours. It was not learned how many ballots were taken. Whether there will be another trial was said to rest with the prosecution.

The trial began last Tuesday. Most of the witnesses were children ranging in age from 7 to 11 years.

Bennie Slavin was fatally shot with a small rifle while at play in the same yard with the Burkett boy and several other children. An effort was made in court to prove that there was bad feeling between the two. The Burkett boy stoutly maintained that he did not fire the rifle.

12-Year Old Pearl Davis Missing From Her Ardmore Home

ARDMORE, June 3.—Two hundred photographs of 12-year old Pearl Davis, who has been missing from her home since Saturday afternoon are being sent to county and city officials of Oklahoma and Texas. No trace of the child has been found, despite the efforts of officers and the Salvation army.

It is believed the child was abducted.

NO SIGNS OF RIOTING SINCE MARTIAL LAW WENT INTO EFFECT

Freeling Ordered by Governor to Make Investigation: Business Men of Tulsa to Re-build Destroyed Area; Negroes Going About Their Work With no Demonstration of Violence; Several Still Held at the Fair Grounds.

(By Associated Press)

TULSA, June 3.—Troops on duty here under a proclamation of martial law will be recalled at 3 p. m. today unless some untoward incident occurs, before that hour, Brigadier General Barrett announced shortly before noon today after a telephone conversation with Governor Robertson, at Oklahoma City.

General Barrett told Governor Robertson that the martial law was relaxed to permit normal business here last night and nothing out of the ordinary occurred. He said that the hysterics which followed the rioting here had died down and that after very severe talks with county and city officials, he was satisfied that Tulsa county and city again could take care of themselves.

Freeling to Investigate.

OKLAHOMA CITY, June 3.—A thorough and complete investigation of the recent Tulsa race conflict by S. P. Freeling, attorney general, was ordered by Governor Robertson, in a formal letter directed to the attorney general today. Freeling was authorized to proceed to Tulsa at once and reserve all evidence which will be submitted to the grand jury when it meets.

TULSA, June 3.—Definite plans for building homes for the thousands of negroes rendered destitute by the burning of the negro quarters here in the race war of Tuesday night and Wednesday, were being worked out today by a civic committee of relief.

Business men of the city were pledged to erect as many houses as needed in the shortest time possible and only the details remained to be worked out. One plan was to clear away the debris from the section leveled by fire and erect permanent dwellings costing from \$500 to \$1000 each. Another scheme under consideration was to form a corporation to buy up land in the northern section of the city and build a new negro colony.

The number of dead remained at 30 today, no additional bodies having been found. The list was expected to be increased slightly by deaths of some of the severely wounded.

A real estate committee set to work today to determine accurately the extent of the property damage resulting from the incendiary fires which has been fixed unofficially at \$1,500,000.

Martial law, greatly modified, remained in effect today, but the 300 troops left here under the command of Adjutant General Barrett had little to do except to aid in relief work among the negroes. It was believed that they might entertain tomorrow although Adjutant General Barrett said the military would remain in control until he was assured that the civil officials were fully prepared to handle the situation, and prevent any possible recurrence of the disorders.

Hundreds of negroes wearing badges inscribed "police protection" were on the streets and downtown. Tulsa took on a normal appearance.

Negroes were at work in hotels and stores and other business places. More than one thousand negroes who had not been released from guard, slept last night at the fair grounds.

Contributions from a number of outside cities for relief purposes were received today by the Red Cross. The chapter here has fully organized for the emergency and is distributing food and clothing at a dozen churches.

Negroes Organized. (By the Associated Press)

TULSA, June 3.—National guardsmen in control of Tulsa city and county since Wednesday morning when they restored order after several hours of race rioting, and incendiary, which cost 30 lives and property loss of \$1,500,000 will be withdrawn late today, unless some untoward incident makes their retention necessary. Work of relief and rehabilitation and investigation of the outbreak will be left to regularly constituted local officials and a special committee of seven civic leaders.

Definite plans for alleviating the immediate suffering of the thousands of negroes rendered homeless, by the torching of their homes, had taken shape today and the special

Crushed Rock From Ada May Be Used by Ardmore Railroad

The fine grade of crushed rock which is being used by Ada industries has attracted interested parties from other places. C. H. Lewis, superintendent of the O. N. M. & P. Ry. Co. of Ardmore, was in the city yesterday conferring with the officials of the local cement company on the matter of securing crushed rock from the crusher at Lawrence to ballast several miles of the company's road.

His company, better known as the "Ringling Road" out of Ardmore, has 17 miles of road bed to ballast and it is believed that the rock for this purpose will be secured from the Ada quarries. He left yesterday afternoon for Oklahoma City where he will go into detail with the cement company's representatives on the matter.

Orr, French artist, commissioned to make the etchings by the French government.

ARDMORE—Reports from the Carter County Truck Growers association are to the effect that one of the largest acreages of watermelons and cantaloupes has been planted this year in the county.

LAWTON—A permanent state boy scouts home and camp will be located at Craterville, near the Wichita National Forest. Frank Rush, superintendent of the preserve, announces. A building has been purchased at Ft. Sill and will be moved to Craterville.

SHAWNEE—More than 200 delegates from all parts of the state attended the convention of the Woman's Home Missionary society which closed a four-day session here June 2.

ARDMORE—The ninth annual summer term of Ardmore public schools will open Monday, June 6. Summer school will be free this year, the first time in the history of the school.

BARTLESVILLE—Babies registered in the baby show here returned higher scores than any of the previous years, authorities announce. Only four were rated below the 90 mark out of more than 500 entered.

MUSKOGEE—Boys between the ages of 16 and 21 years are organizing a secret fraternal order here known as the "Order of DeMolay." The national headquarters is in St. Louis.

PAWHUSKA—The annual garden show, because of the dry weather, will not be held here until late in June. It was originally planned to hold the garden products show the first week in the month.

MUSKOGEE—Twelve seniors are trying out for the scholarship offered graduates by various universities over the country. More interest is being displayed this year in competition for these scholarships, school officials announce.

OKMULGEE—The new Salvation Army here has been dedicated. Local pastors delivered dedicatory addresses while the "Singing Brigade" from the Tulsa army aided in the musical program.

HOBART—For a period of two months the Kiowa county public health committee will conduct a campaign to teach mothers how to care for babies. The first month will be devoted to Hobart and the other in outlying districts.

OKEMAH—The boy scout camp for local troops was dedicated at Lake Okemah, May 30. The camp will be the scene of summer activities of the Okemah scouts.

MUSKOGEE—During the last 12 weeks the total estimated valuation of new and repair constructions, according to permits is \$410,420. A total of 47 permits were issued during May.

A Week End in th' City.

Now that nearly ever'buddy owns an automobile, an' interurban cars thread th' country side, there's no reason why th' farmer an' his family shouldn't spend an occasional week end in th' city.

Our handy modes o' transportation is a happy solution o' "th' uncharable monotony o' Sunday on th' farm," with th' incessant crowin' an' cacklin' o' chickens, moooooing, nickerin' horses, gruntin' hogs, an' th' sad bleatin' lambs fer across th' fields.

For those who are weary o' playin' croquet in th' cool, shady door yard, or readin' on th' verandy, ther's no diversion comparable t' a gay ghill t' th' city an' back.

Don't hunt up your city cousins. They'll not be at home, an' if they are they'll have little t' eat.

A couple o' rounds on th' phonograph is about all th' entertainment they kin offer.

They'll talk about high taxes an' th' cost o' livin' an' how they're up against it, an' you couldn't swallow if you stayed t' dinner.

Hunt out th' big churches, an' th' picture houses, an' th' ball park, an' eat where you please.

Ther's many ways t' enjoy one's self in th' city without obligatin' yourself t' relatives.

Th' show windows o' th' great stores is a never endin' source o' delight.

An' you'll find plenty t' laugh at, fer ther's more rubes in a city than you ever dreamed of.

Park on some good corner an' watch 'em go by. Painted thin spaced misses out on parade; gray-haired dudes with yellow spats; pale, shabby non-producers with rough collars an' chins elevated; smart young men with close reefed derby hats pulled far down on th' ears, an' many other types worth seein'.

Walk thro' th' parks an' see th' dizzy, frayed-out loafers.

Saunter thro' th' big hotels an' see th' chair warmers an' lounge lizards.

Git a permit t' visit th' jail an' see th' purse snatchers an' auto bandits.

We jest have confidence enough in th' farmer an' his family t' believe that two or three good week ends in th' city'll bring 'em t' other senses an' make 'em realize that after all th' place t' find peace an' contentment is on th' farm—Abe Martin in Farm Life.

President Harding has been made an active member of the "President's Own Garrison," No. 104, Army and Navy union, by the garrison. He is the fourth president to be so honored. McKinley, Roosevelt, and Taft were the other three. The organization is the oldest of its kind in the country, with the exception of the G. A. R. In the photo President Harding is shown with the officers of the garrison

CHRISTIAN ENDEAVORS WILL CONVENE IN OKLAHOMA

OKLAHOMA CITY, June 3.—The 31st annual convention of the Oklahoma Christian Endeavor Union will take place in Oklahoma City

Gladden Eager Appetites and Tired Ones

FROM the youngest member of the family to the oldest, everyone likes tender, tasty R. B. M. Canned Peas and Corn. Prepared in any of a dozen ways, they gladden eager, young appetites, as well as tired, fickle ones.

They come to you as tempting and tender as on the day they ripened in the broad, fertile gardens. All the natural zest and flavor of the fresh vegetables is retained. Serve them often.

Ridenour-Baker Merc. Company
Oklahoma City

June 6-9, main sessions of the convention to be held in the First Presbyterian church. This convention has been termed as the "Best Yet" and indications are that this will be true in every sense of the word. Over 1500 registrations have

already rolled in to Miss Blanche Weir of this city who is the registration chairman and while the pre-registration contest has closed, yet it is expected that fully 2,000 will register before the closing session of the convention.

The convention motto is "All for Christ—Christ for All" and the text is "Not by Might, nor by Power, but by My Spirit, saith the Lord of Hosts," and from this text Rev. Oscar Lowry of Tulsa will deliver the opening address on Monday evening. June 6th. Monday evening will be featured also by the "pep" parade when each of the districts winning a registration flag will march around the main auditorium of the Convention church. The evening will be closed with a social hour in charge of Miss Myrtle Crites.

PUBLIC DANCE PLACED UNDER LICENSE

(By the Associated Press)

ST. LOUIS, June 2.—An ordinance placing all public dance halls under licensed control of the city has become effective here. The halls will be regulated by the Department of Welfare.

Violations of the ordinance will be punishable by a fine of from \$25 to \$500.

Passage of the act resulted from investigation of the "crime wave" in St. Louis several months ago by the Board of Aldermen. Police officers said much crime was traced to dance halls.

The ordinance stipulates that a license fee, ranging from \$30 to \$150 a year, according to the size of the hall, shall be paid to the city. Licenses will be issued after an examination by the Director of Welfare as to the character of places. Halls must be closed after 1 a. m., except when operated on permits issued for special occasions.

Persons under 17 years old are barred from halls after 8 p. m. unless accompanied by parents or guardians or by an adult with a permit from the parents or guardians. Proprietors of halls who permit disorderly persons or criminals to gather in their halls or permit vulgar dancing or vulgar language will lose their licenses and be guilty of a misdemeanor.

Director of Welfare Schmoll said the city would receive between \$25,000 and \$30,000 a year in revenue from the halls.

Cards of Thanks

We wish to extend our heartfelt thanks and gratefulness to the many friends who have assisted us during the illness and death of our father, R. W. Bonds. Can Dempsey Lose His Title on Foul? Decision On Question Urged

By Norman E. Brown

There are any number of interesting angles as to possible outcomes of the coming contest between Heavyweight Champion Jack Dempsey and Georges Carpenter. One of these is the possibility of one or the other man fouling his opponent. What would happen, for instance, if Dempsey should accidentally or otherwise hit Carpenter low. Would the referee be forced to award the world title to Carpenter?

The question may be well raised and submitted to Tex Rickard and the principals in the bout for settlement before the big event in view of the fact that Carpenter claimed victories over three other American fighters by the foul route—winning on one claim.

According to all ring precedents, Dempsey would not lose his crown should such a condition arise. But the question never has been definitely settled for the simple reason that no real serious case of the kind has ever happened in a modern championship battle.

The bout between Kid Williams and Kewpie Ertle of St. Paul for the bantamweight title a few years ago was about the only one of its kind in the history of the modern game, at least. Williams, then the champ, hit Ertle low in the fifth round at St. Paul. Ertle was unable to continue the bout, so it was halted. The referee could not make a decision one way or the other, however, as no decision was allowed. Ertle undoubtedly had a right to claim a victory in the bout by virtue of Williams' act in fouling. But the public never completely recognized Ertle's claim to the title. When Williams met Pete Herman about a year later Williams was still called the champ

and Herman was awarded the title when he beat the Baltimore kid.

Carpenter put in a claim of foul when Billy Papke and Frankie Klaus defeated him in decisive style, but these claims were not allowed. When Gunboat Smith tackled the Frenchman the referee gave Carpenter the verdict on foul despite the fact that Carpenter's manager really forfeited the fight to the gunner by climbing into the ring before the referee's decision was made known.

Now, as to the fairness of depriving a champion of his title when he fouls. If the blow is really low—too low to be accidental and the recipient be really rendered incapable of continuing the fight the one who delivers the blow should be declared the loser of the bout and his title should go to the winner—the man fouled.

But should the blow be questionable, and in the opinion of the referee, a slight one and purely accidental, the blow should not be used as a means of depriving the champion of his laurels. Any fighter in the heat of battle is liable to hit slightly below the belt. But the fighter who wants to be clean ought to be able to pull his punch when he sees that it is going to

Turks Again Take Frightful Toll of Armenian Christians

(By the Associated Press)

LONDON, June 3.—The Athens correspondent of the Exchange Telegraph Company, says, under date of Thursday, that Constantinople reports tell of new frightful massacres of Christians at Samsun and Trebizond on the Black sea coast of Armenia. The streets are strewn with bodies of Greeks, he says.

"If I could only sell something, it would be easy to get by," said a man a few days ago. He was instructed to invest a few cents in a News "For Sale" ad and he sold it. Moral: Are you taking advantage of your opportunity?

BARTLESVILLE—At the graduation exercises of the high school one member of the Junior class

was awarded three honor medals and two honorable mentions.

Nothing is too big or too small to be advertised in the News Want Ads. Don't forget it.

O. That Fever!

How dad suffered with it until he tried this famous old remedy. Now he says: "I've never felt better in my life!"

THE TULSA RIOTS

That the sorry mess at Tulsa is regretted by every loyal law-abiding citizen of the state goes without saying. Like a rerudescence of the lawlessness of the Dark Ages, it came in a flash, leaving waste, death and disaster in its wake. The participants in the rioting are to be condemned in the strongest terms; the law abiding citizens of Tulsa who must share in the shame are to be pitied.

But why talk about the things that have been? The thing to do is to find the cause and then go about in a deliberate manner to guard against the recurrence of a similar outbreak of barbarism, at Tulsa or elsewhere.

Several conclusions may be drawn from this, as from similar clashes, in the last two years. All of these should be taken into consideration by both whites and blacks. We do not say the remedy we recommend is right or just. We simply say it is the only way in which the two races can live in the same town or community peacefully and safely.

The first thing is for negroes not to organize. Of course the negroes have a perfect right under the constitution to organize any kind of protective or educational society. At the same time, most of the trouble between the races has occurred where the negroes have some kind of an organization. Whether there was a strong organization in Tulsa we know not, though the rapidity with which they assembled and got into action would indicate that a thorough understanding as to the manner of action was prevalent. It has been definitely determined that the outbreak at Helena, Arkansas, more than a year ago resulted from an organization of blacks.

Negroes must not attack white women. Whether right or wrong, the white people of the South, and in fact of the entire nation, have decreed that an attack on a white woman must be appeased for by the life of the negro at the hands of a mob. The negro race would make the relations between the races more friendly if the members would not try to shield a negro who is guilty of such a crime, but on the other hand should attempt to deliver the right man.

Two races cannot live side by side and on an equal basis. One must be master and the other servant, or at least one a leader and the other follower. The social barrier cannot be crossed, the business barrier cannot be crossed; the workroom barrier cannot be crossed. As a rule the blacks recognize this fact, but now and then there is an attempt to cross either of these barriers, and trouble follows. Whether this is right is not a question. It is a fact, and facts must be faced.

On the other hand, there are vandals among the whites, those who are deterred from murder, rapine, arson, and a thousand and one other crimes simply because they are afraid of the law. There are two kinds of citizens, those who obey the law because it means right living; others who obey the law because they are afraid not to. It is this latter class who, feeling suddenly the restraint of the law removed, destroy property and life.

Then, too, there is in almost every community some of the law enforcement officers who are actually in sympathy with the law violators. Given an opportunity to desert their post, they will be found either aiding the lawless or winking at their acts. Judging from the Tulsa reports, we fear the officers were not true to their oaths.

The negro is a minority race. To attempt to do anything by force is not only foolish but is suicidal. The negroes should recognize this fact, and determine to attempt no longer the use of arms. He has one and only one place for justice and that is in the courts. Let the negro race realize this fact; let the whites realize that we should give the negro his legal rights; let the negro realize that he cannot cross the social, business, or working fellowship barrier; let the whites determine to protect the negroes as long as they keep on their side of the barriers, and the race trouble will be settled.

The Shawnee News insists that Shawnee will have a celebration on July 4. We are pleased to know that Shawnee knows there is a July 4 and that it is a time for celebrating.

THE ONE WOMAN

We have not discussed in the editorial columns the J. Q. Denny case, for the simple reason that he has said nothing, and we are loath to convict before we hear both sides. Many of our contemporaries have tried him, convicted him and sentenced him to a life of shame during the rest of his earthly pilgrimage.

Man by nature is a polygamist, as are most of the males of the entire animal kingdom. The decree of the Most High however, and the decree of society is that man should take unto himself one wife. As society advances, as the cares of family life become more complex and exacting, as the public conscience becomes more a thing to be reckoned with, it becomes more dangerous from every standpoint for man to attempt to have more than one woman.

The time was in the past when a man in a dominating position could keep his harem, but now if he attempts that he will not long be in a dominating position.

Man's happiness depends upon a congenial home life, which is aided by the presence of children. The man who

neglects his wife and children, or his wife without children, and takes unto himself another woman, is playing not only with his own life but with the lives of both women. It simply is not done now, and a man is a fool to think he can get by with it. Retribution may be slow, but it is sure. It seems that Denny thought he could do that which is contrary to our sense of right and decency, and he failed, just as others will fail.

Don't complain if the rains seem overabundant at this time. Remember the hot June sun will take the moisture rapidly and we may need the moisture in a few weeks.

BABIES

To those captious critics of modern methods of feeding and taking care of babies who say the good old ways were best, there is one fact in answer. Thirty years ago, one baby in every four born in New York City died before it was a year old. Last year it was only one in about 11. "The measure of efficiency of health agencies and doctors and nurses," says Dr. Royal Copeland, metropolitan health officer, "is their ability to protect the babies against disease and disaster."

Evidently their measure is pressed down and running over, since they have been able to reduce the infant mortality so much. They are saving two-thirds of the babies who under the circumstances of 30 years ago would have been doomed to die. But until the rate drops to something like three or four in every thousand, instead of 85, they still have a long way to go.

Summer is coming, with its difficulty of keeping babies cool and properly fed. It is time for every city, town and country community to take stock of its public health measures. How many babies died last year? How many can be saved this summer?

Every individual mother who has not already done so should write to the Children's Bureau at Washington for its list of books and pamphlets on infant care. Then she should order the ones she needs—the cost is negligible. And she should study it as if her life, and her baby's—as indeed it does—depended upon her ability to pass an examination on its contents. When once she knows the rules, she should follow them, indulgent relatives and shocked elderly friends notwithstanding.

Building Revival An Encouraging Factor.

Fort Worth Record: At the present time the most encouraging factor as regards the prospective betterment of the American employment situation is the country-wide increase in building activities which last month exceeded those of any similar period since June, 1920, according to the Guaranty Survey, published by the Guaranty Trust company of New York. Contracts awarded in Twenty-five northeastern states in April aggregated more than \$200,000,000, the largest amount for April of any year except 1920, and 34 per cent in excess of March.

Contracts awarded in the New England states last month totaled \$17,800,000, an increase of 34.4 per cent over March, and contracts awarded in the first four months of this year amounted to \$46,400,000 or 25 per cent more than for the corresponding period in 1919.

In New York and Northern New Jersey construction contracts in April aggregated \$51,000,000 an increase of 71 per cent over March. In the Middle Atlantic states, April building contracts amounted to \$27,246,000, which represented a slight increase over the preceding month.

In all sections of the country residential construction leads all other buildings, due to the fact that we are short some 1,500,000 homes as a result of retarded construction during the war.

The importance of this revival in building lies, of course, in the fact that, in addition to affording employment to thousands of men in the building and allied trades, it stimulates many other industries, such as steel, brick, cement, lumber and scores of others and, consequently, increases the volume of freight for the railroads.

All of this will augment the purchasing power of the country and create a greater demand for all kinds of commodities. Still further readjustment in the prices of material and cost of labor must occur, however, before there can be a large building boom.

The Disgrace of Tulsa.

The Tulsa World: Proud, matchless Tulsa comes before the bar of Christian civilization this day, and, with head bowed, the mantle of shame upon her cheek, and we sincerely hope, with deep regret in her heart, asks that she be pardoned for the great offense some of her citizens committed during Tuesday night and Wednesday morning.

There is not a man worthy of the name whose heart is not afire with indignation against that which has been done. Members of a superior race, boastful of the fact, permitted themselves to degenerate into murderers and vandals; permitted themselves to deal their home community the foulest blow it has ever received in its history.

Tulsa boasted that she was not Ardmore. And now a negligible number of men have plunged the reputation of the fair city into the depths of infamy. Language is incapable of painting the wrong which has been committed against the community and its peaceful, law-abiding citizens or of expressing the indignity one inevitably feels towards men incapable of controlling their passions and their prejudices.

It is true that the pride of race as well as its prejudices is a consuming fire in the veins of every nationality. On this ground one would like, if it were at all possible to condone or excuse the hysteria of Tuesday evening and night, when the streets of the city were suddenly transformed into a raging torrent of hate-impelled men. The imprudence of the negroes in arming

themselves and visiting the county jail permits something to be said for those who responded to the riot impulse and set out to satiate the blood lust or racial pride.

But nothing that the mind is capable of conceiving permits a word of defense or excuse for the murderous vandalism which set in at daylight the next morning. Hundreds of thousands of dollars' worth of property—the homes of women and children, black in color, to be sure, but guilty of no other offense—went up in smoke. Semi-organized bands of white men systematically applied the torch while others shot off sight men of color.

The colored section of the city was wiped out, and a long line of hopeless, destitute, pitiful refugees fled northward from the burning town. The German invasion of Belgium with its awful consequences was no more unjustified or characterized with any greater cruelty. In the conflagration a splendid new church but recently erected and one of the handsome educational edifices of the school district was lost. To such property the vandals applied the torch to make sure of freedom which we have enjoyed, so long as they shall dwell upon the earth.

Drink to a land where might makes right if you wish. But I'm drinking to a land where right makes might. "And the Star Spangled Banner oh long may it wave, O'er the land of the free and the home of the brave."

PHYSICIANS TO MEET AT BOSTON MONDAY, JUNE 5

BOSTON, Mass., June 2.—Between 4,000 and 6,000 physicians will invade this city on next Monday to attend the Seventy-second annual session of the American Medical Association which begins a 5-day convention.

The House of Delegates will convene Monday morning and the meetings of sixteen scientific sections will take place during Wednesday, Thursday and Friday. For the accommodation of these meetings and section headquarters more

than twenty halls and buildings are utilized.

With invited guests, families and exhibitors the attendance will be brought up to 10,000 persons.

Among the special features of the session will be the Scientific Exhibit, showing the newer advances in medicine and surgery, a motion picture theatre devoted to demonstration of scientific work and the Commercial Exhibit in which several hundred firms dealing in medical supplies will take part. Preceding the session special clinics will be given for visitors by the Boston physicians and nurses.

Among the foreign guests who will attend this session are Dr. W. Blair Bell, noted surgeon of Liverpool, England; Dr. H. E. G. Boyle, London; Dr. Jacques Calve, Plage, France; Sir George Lenthal Cheetham, noted surgeon of London; Dr. Pierre Janet, famous neurologist and psychiatrist, Paris; Sir Robert Jones, orthopedic surgeon, Liverpool; Professor V. Putti, Bolgona, Italy; Dr. Richard G. Rows, neurologist and psychiatrist, London; Lieut. Col. Henry Smith of London, noted for his work in India on cataracts; Prof. Soubbotitch, Belgrade, Serbia; Drs. M. Turbin and A. Widner, Territet, Switzerland and Dr. Carlos Caga of Brazil. The last mentioned will speak on American trypanosomiasis. Num-

erous reunions of medical war veterans who have served in base hospitals and camps will be held as well as alumni and fraternity reunions. A scientific program includes 315 papers covering all of the fields of medical science.

For Saturday Only.

Art and Life
What thing a right line is, the learned know;
But how avails that him, who in the right
Of life and manners doth desire to grow?
What are all these human arts and lights
But seas of error? In whose depths who sound,
Of truth find only shadows, and no ground.
Then if our arts want power to make us better,
What fool will think they can us wiser make?
Life is the wisdom, art is but the letter.
Or shell, which men oft for the kernel take;
In moods and figures molding up deceit,
To make each science rather hard than great.
—Lard Brooks.

Mrs. Frank McCauley is spending the week visiting friends near Frisco.

J. A. McCauley and son and daughter of Wilson, Okla., who have been visiting his brother, B. F. McCauley at his home on South Johnson avenue, returned to their home at that place yesterday.

C. W. Turner of Kansas City is in the city visiting Mr. and Mrs. O. E. Parker. He will spend several days in the city.

Mrs. Greenburg, wife of Mr. Greenburg, proprietor of the Up-to-date Cleaners, located on East Main street, has arrived in the city. She came here from Chandler, their former home, and will make her future home in this city.

Miss Faye Hanner of Wapanucka, who has been attending the Normal, left this afternoon for that place to spend the week-end holidays with her parents.

Mrs. George Walker of Okmulgee arrived in the city today to spend the week-end visiting her sister, Mrs. M. B. Shackleford, and other relatives and friends.

Hughes County Meets. Students attending the Normal from Hughes county met Thursday evening at 7:30 in the Normal building for the purpose of perfecting an organization among the Hughes county students. This organization, which promises to be one of the most lively units of the student body, has adopted the name of "Hughes County Club". The purpose of the club is to provide entertainment for the students during the summer term.

A president, secretary and treasurer were elected and the first committee to make plans for the first picnic to be held Tuesday evening of next week. The president elected was M. Z. Hughes, one of the special instructors for the summer term. He was superintendent of the Holdenville high school last year.

Miss Beulah Wiggs was elected secretary-treasurer. Those composing the committee were S. P. Far-

Tailored Directoire suit with collar and cuffs of Chassaine blue braid, trimmed with silver buttons. White pique vest with Black Directoire fob and silver medallion dangling from vest pocket. The chapeau is a close fitting turban with Talbot wings.

mer of Yeager, chairman; Misses Pearl Vezazy, Cuba Whittemore, Anna Sherry and Beulah Wiggs.

Those in charge of the club wish to announce to these of Hughes county who failed to attend the meeting Thursday evening that other meetings will be held in the near future which they are urged to attend. Notices as to the activities of the club will be posted on the bulletin board.

Children to Sherman.

Mr. and Mrs. O. N. Walker and little son, Mrs. F. E. Bowman and little daughter and Dr. S. P. Ross left this afternoon for Sherman, Texas, where the two children will undergo an operation for the removal of their tonsils. The party will be gone until the children are sufficiently recovered to return home.

Annuals Are Here.

W. K. Newcomb, business manager of the Normal School annual, the "Pessagi," announced today that the annual had arrived and would be distributed this afternoon. The book is reported to be one of the best ever published by the school. Several hundred copies will be sold it is believed.

For Saturday Only.

Hair braids, malines and taffeta hats for \$5.00; Sport Hats \$4.00 to \$7.50—Mrs. White's.

Who's Who at the Normal

Miss Ruby Andrews

Miss Ruby Andrews is attending the summer Normal as a member of the junior class. During her first year's experience as a teacher she made a success of her work, having taught in a rural consolidated school near Vanoss. However, she will not teach next year, desiring to attend the Normal until she finishes. With another year at the Normal she will graduate.

Lee Low

A quiet, hard studying student of the Normal school is seen in the person of Lee Low, who is now a senior. He will finish his senior work this summer. For two years Mr. Low taught as principal of the Tishomingo school with marked success. He has also had some experience at teaching in rural districts. He has not yet decided where he will teach next year.

First Baptist Church.

Sunday morning the pastor of the First Baptist church will preach on the subject, "God's Fullness for an Empty Vessel." The pastor is very anxious to have all the members of the church present to hear this message. Two weeks from next Sunday, our revival meeting will begin. Dr. J. M. Dawson, pastor of the First Baptist church of Waco, Texas, will be with us and do the preaching. He is one of the greatest preachers in all the southland. The music for the meeting will be under the direction of Mr. E. O. Allen of Shawnee, Oklahoma. Mr. Allen has been with one of our state evangelists for two or three years and is a master in his line. We are hoping and praying that we will have a great meeting; that the spiritual life of our church will be deepened and that there may be a great gathering of unsaved.

At the evening service next Sunday the pastor will preach on the subject, "Is there a Hell and does it last forever?" If you are not thoroughly convinced on this subject, we will be happy to have you present to hear a free and frank discussion of it from a Bible standpoint.

Clyde Calhoun Morris, Pastor.

They laughed and cried! And left the theatre with every emotion from hysterical gales of laughter to the stifled sobs of sympathy completely exhausted.

That was the experience of the audience at the American theatre last night who went to the opening of Charlie Chaplin's new film "The Kid," widely advertised as First National's six reels of joy. "Six reels of joy" tells but half of it, for while the comedian has never been so mirth-provoking in any previous production, the story which is unfolded contains more real heart-throbs than many a picture that has built up reputations for emotional actresses.

Mrs. Myrtle Chamberison died at her home, 831 West 15th street Thursday of tuberculosis. She is the daughter of Mr. and Mrs. J. M. Blood. She was 26 years of age and had suffered many months with the disease. The funeral was held today at 10 o'clock with Rev. R. C. Taylor, pastor of the First Methodist church, officiating. Interment was made in Rosedale.

Marriage License.

CLARA SMITH TO APPEAR IN PICTURE ENTITLED FATE

LOS ANGELES, June 3.—The life story of Clara Smith—more vividly portrayed than even the sor-

did facts revealed during the famous Ardmore trial, where she was acquitted for the murder of Jake Hamon, millionaire politician, will soon be shown on the screen.

Despite the combined opposition of the motion picture industries to prevent Clara's appearance, \$200,000 will be spent on the production it is said by Manager W. E. Weathers, wealthy Texan.

She appeared this week for the first time in a Hollywood studio. All outside scenes covering several thousand feet of film have been taken during the past three weeks in Mexico, Oklahoma and Texas.

John Gorman, hired by Clara Smith to direct her, will receive \$70,000 for his work. "Fate" will be the name of the picture, and it will run from seven to ten reels. Several prominent film stars, whose names will not be used, and a cast of fifty persons will appear in the picture.

Motion picture interests through-

out Southern California are aroused over Clara's persistency in portraying her tragic life on the silver sheet.

TULSA.—The W. M. C. A. will conduct three boys' camps at Camp Tablequah this summer for Tulsa boys. Two school boys' camps will be held from June 28 to July 7 and July 8 to 17, and employed boys, July 19 to 28.

MUSKOGEE.—Eleven students of the Oklahoma School for the Blind were graduated this year. Diplomas in voice, piano and literary were awarded to several of the graduates.

DRUMRIGHT.—Methods of laying the dust on the roads in Creek county are under advisement by the county commissioners. A plan advanced by Muskogee county, using calcium chloride from oil wells, is being considered.

WASHINGTON FROM THE SIDE LINES

WASHINGTON, June 3—(Capital News Service)—While historic Fredericksburg, Va., has just joyfully and successfully celebrated the 250th anniversary of its birth, the University of Virginia, equally historic, is preparing to transform itself into a great "movie" lot for the purpose of presenting an out-of-door pageant, the "Shadow of the Builder," in commemoration of its centennial. Fifteen girls from the Women's State College of Mississippi, in addition to artists from other sections, will supplement the Players' Club of the university.

Miss Alice Robertson, the Oklahoma congresswoman, who was recently elected a member of the Washington branch of the National Association of Restaurant Keepers, was a guest of honor at a big social affair given here. This distinction came to her because of the fact that she has successfully operated a restaurant in her home city for years.

A wrong impression seems to exist to the effect that the final passage and approval of the Knox peace resolution would automatically turn back to owners securities held by the Alien Property Custodian, according to officers of that organization. It is stated the putting into effect of this resolution would still leave the affairs of the custodian's office to be disposed of in accordance with the legislation under which the property was taken over.

When the more urgent matters before Congress are fairly well disposed of it is certain that reclamation and irrigation will come in for their fair share of attention from the national legislators, and the president and his advisers are this early being furnished first-hand information as to the vast importance these constructive works bear to the reconstruction program of the country.

Congress, which started in with a vim, and which has been working faithfully and effectively, may go on through to the regular session without a recess, but signs are multiplying that it will not. Just a day or two of real summer temperatures has had the effect of causing the solons to listen appreciatively to suggestions as to how an adjournment in the early fall or a recess in the middle of the hot months might be brought about.

The new senators and representatives in Congress, brought in with the republican landslide, and a big majority of them from the west and northwest, are fast settling down to the congressional grind and learning the legislative routine rapidly. In Washington a new senator particularly, and a new representative, incidentally, gets a whole lot of attention from the press and the public for a few weeks. After that, except where the new member, on occasions, like the old ones, gets into the lime-light he or she is soon fairly well forgotten.

LAUGHING IN HIS SLEEVE

"I was told nothing but an operation would help my stomach trouble, and was getting ready for the operation when a friend advised me to try Mayr's Wonderful Remedy. The first dose helped me. I am now as well as ever in my life, and am laughing up my sleeve at the doctors." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

Two Ex-Policemen Withdraw Appeal to the Commission

What promised to be a lively meeting of the city commissioners Thursday afternoon settled down to a very tame affair when Frank Palmore and T. J. Morrow, members of the police force until the night of May 31, withdrew their appeal to the commission.

Mayor Kitchens relieved the two from duty on the force at the end of the month, and they gave notice that they would appeal to the commissioners. To this the Mayor says he agreed, though he says there is no law whereby the other commissioners, even if they were willing to do so, could override the rulings in the police department. When the board met, and the Mayor informed the men he had not filed nor intended to file any charges against them, they withdrew the appeal and the matter was dropped.

The men were relieved of their badges on account of not being able to get along with Chief Gotcher, according to Mr. Kitchens. In other respects, they had given good service. The mayor believes that the most effective work can come only from a united force everyone working in harmony with every other one.

Mr. Gotcher insists both Mr. Palmore and Mr. Morrow are good men and that it was with regret that he let them go.

CROSS THE CANADIAN

Between Francis and Sasakwa
ON THE FRANCIS FERRY BOAT
Rates reasonable. Same price to everybody.

THERE is a big difference between Calumet and all other Baking Powders. **First**—you see it in the cost. Calumet is sold at a moderate price. **Then**—you observe it in use. Calumet has more than the usual leavening strength, therefore less is required. **Next**—you notice it in raising quality—in the evenness—lightness and texture of your bakenings. They look better—finer grained.

"S-o-m-e Biscuit!"

"BEST BY TEST"

CALUMET BAKING POWDER

Finally—what a difference in the taste. There is a deliciousness, a goodness that can be had in no other manner. Biscuits, pies, cakes, muffins, doughnuts—never were so tasty—so all satisfying.

And then there is the satisfaction of knowing that Calumet is made in the World's largest, best equipped and cleanest Baking Powder Factories.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Biscuit Recipe

4 cups of sifted pastry flour, 4 level teaspoons Calumet Baking Powder, 1 level teaspoon of salt, 2 rounded tablespoons of butter or lard, 1/2 cup of milk, 3/4 cup of water. Then mix in the regular way.

SOMEBODY GOT BABE RUTH'S GOAT, SO MARY OFFERED HIM LITTLE LAMB

Babe Ruth, Miss O'Brine and the little lamb.

Mary's little lamb, "Supreme," followed her to the Chicago White Sox ball park to see Babe Ruth knock a home run. "Supreme" was a gift to Miss Virginia Mary O'Brine, who is starring in "Mary" at one of the Chicago theaters, and was selected from among 25,000 other lambs at the stock yards. Babe did not get a home run, for evidently some one in the Windy City got Babe's goat, so Mary offered him her mascot, "Supreme," for luck.

most remarkable change made by the bishops at their annual meeting in Portland, Oregon, is the adoption of the volume of the church and industrial reconstruction dealing with social problems, issued by the Inter-denominational committee on the war and religious outlook, and a volume on Modern Pre-millennialism by H. F. Rall which combats this doctrine. Professor Rall is a member of the

faculty of Garrett Biblical Institute of Northwestern University.

PROFITS BY WHAT HER MOTHER DID

Tanlac restored my mother's health so perfectly that I began taking it, too, and just two bottles have helped me wonderfully," said Mrs. Goldia Bird, 310 1-2 East Markham Street, Little Rock, Ark. "A short time ago I seemed to have a general breakdown," she continued. "My stomach became so disordered that nothing tasted good and I just didn't want to eat a thing. I fell off in weight and became weak and run-down. My complexion was pale and sallow and my back ached so I could hardly lift my little baby. I took little or no interest in anything and was going from bad to worse.

"But I think Tanlac is just wonderful to have helped me so in such a short time. I have only finished by second bottle, but already I feel like a different person. I enjoy what I eat and am gaining in weight. The pains have about all gone from my back and I have been built up so I feel better and stronger in every way. I have nothing but the highest praise for Tanlac."

The study course including books to be read by the three thousand young ministers and the students at Methodist theological seminaries, are in charge of a commission created by the General Conference of the Church, the chairman of which is Bishop Edwin Hughes of Boston. The commission, once in your years, prepares the course of studies to be followed. This has just been passed and approved

CHANGE IS MADE IN STUDY COURSE FOR MINISTERS

(By the Associated Press)

CHICAGO, June 3.—Important changes have been made in the books to be read in the course of study for the three thousand Methodist young ministers who are studying while they preach, and the students at ten theological institutes, who are preparing for the ministry, according to information received today at Methodist headquarters here.

Among the recommendations, the

Public Demands Bergdoll. (By the Associated Press)

INDIANAPOLIS, April 7.—Hundreds of telegrams and letters voicing a sentiment for the return of Grover Cleveland Bergdoll, convicted Philadelphia draft evader, now in Germany, are being received at national headquarters of the American Legion, officials announced here today. The general public is leading the demand for Bergdoll's return, the Legion officials say.

Miss Bessie Diel returned to Ada yesterday and resumed her old position as nurse at the hospital, after spending five months in El Paso, where she was a private nurse.

Has Active Blind Coroner. (By the Associated Press)

YORK, S. C., April 5.—York county lays claim to the most active blind coroner in the United States. The coroner, Paul G. McCorkle, former member of congress from the Fifth South Carolina district walks about the streets of this city, unaided, save for a long cane. He is able to distinguish hundreds of people by their voices. His office is on the second story of the building on the Main square. In the winter he descends several times each day from his office with a coal scuttle in his hand. Walking down the stairway he finds his way to the coal pile, fills the scuttle and returns.

Coroner McCorkle lost his eye sight many years ago when a horse which he was driving to a buggy, ran away.

The Boy Scout band is planning to go to Francis tomorrow night if the weather is favorable to appear in a scout program. This will be the first of a series of trips they are planning to take to the various towns in the county where scouts organizations are located.

WITH THE WOMEN OF TODAY

Miss Helen Varick Boswell is the first woman to be appointed a member of the lunacy commission of New York state. She was recently appointed by Supreme Court Justice Gravenan, New York.

Miss Boswell is a law school graduate although she does not practice. She is very active in civic organization and politics.

Miss Boswell will be the layman of the commission.

The law requires that such a body consist of an attorney, a physician and a layman. George Mittendorfer, an attorney, and Dr. Constantine J. MacGuire, both of New York, are the other members of the commission.

Miss Boswell is a graduate of the Washington College of Laws. She is assistant chairman of the Republican county committee, president of the Women's Forum, a member of the Women's National Republican club and of the Society for Political study.

The application for the appointment of a commission was made by Thomas Williams, nephew of Miss Laura Williams, seventy-eight, her nephew says she is living in poverty and squalor, although she has \$17,000 in savings banks. Dr. Clarence P. Obendorf, mental specialist, in an affidavit says Miss Williams is incompetent.

Sculptress Famed as Journalist

Clara Sheridan of England is not only a sculptress of reknown, but has been the most talked of international journalistic writer of the past year. Miss Sheridan has lectured in many cities since her arrival in the United States early this year.

Little Figures of Big Men.

Ivie McCarty has sculptured figurines of Harry Lauder, John Burroughs, the naturalist, and Caruso, in this country. In England Mrs. McCarty made figurines of Clara Butt, opera singer; Lady Astor, H. G. Wells and Lord Northcliffe. The likenesses have been enthusiastically commended by artists here and in London.

were utilized by oil men as containers for their product. Anything that resembled a barrel was used and sizes differed so radically that there were many opportunities for fraud.

As instance, it was discovered that frequently the staves were made extra thick with the result that the content of the barrel was less than represented, and purchasers often found that they did not get as much crude oil as they were paying for.

In 1864-65 the first standard size barrel was made by Samuel Van Syckle, at Miller Farm, near Titusville, Pa. It was of forty-two gallons capacity, the size fixed in 1461 in England for the heering barrel during the reign of Edward IV.

Van Syckle specified the size of the staves to be used and made an honest forty-two gallon barrel. Almost immediately he had practically a monopoly of the business, and the odd size barrels gradually disappeared.

The present system of gauging oil tanks was started in 1865, when F. E. Hammond, of Miller Farm, Pa., was asked if he could figure the amount of oil contained in each vertical foot of certain oil tanks. In a few days Hammond prepared a table of one of these tanks, showing the amount of oil it would hold per inch from bottom to top, based

on a measurement of forty-two gallons to the barrel. Hammond's table came into general use and this method of measuring tanks never has changed.

are wanted by schools this year, according to Prof. R. R. Robinson of the Normal faculty, who has charge of the teachers' finishing department. "The demand is not so great this year as it has been in some instances the salaries are being reduced, but we believe that every teacher in the Normal will be able to secure positions next year, as a large percentage of them have already signed contracts. We now have calls for more than 20 teachers and expect many more," was his opinion of the matter.

One thing of interest to be found on the records is the good positions which are being secured by the graduates of the school. Normal graduates are more in demand at this time than ever before, those

in touch with the situation believe. **Library Grows**
The Normal school library has grown to be one of the best features of the school. Prof. E. C. Wilson has charge of the library for a number of years and it is due to his efforts that it has grown to its present position in the school. He has four students assisting him this summer as he stated today that the demand for books was greater than he had ever before known it to be.

There are from 600 to 1000 books taken in and out of the library each day, which with the number of books in stock considered would take about ten days to move every book in the office. This would cause the entire number of books to be removed five times this term. This is perhaps the greatest volume of business the school has undertaken.

"One reason for the increased volume of business in this department is because of the failure of the text books to arrive," Prof. Wilson explained. "The book stores have been unable to secure the books for the students, causing them to resort to the library for a remedy."

A new bulletin board has been installed in the education building. Prof. Robinson stated this morning that the calls for teachers would be posted on the board for the accommodation of those who are looking for schools.

Likes Student Body

The Normal has a student body that is clean, clear thinking, hard studying and above board, is the opinion of Prof. A. B. Herring, who is a special instructor in the mathematics and history departments. Prof. Herring has been superintendent of the Wynnewood schools for the past eight years. He is teaching three classes in elementary arithmetic and one class in college history. His classes average 25 students.

"I have been in other state and private institutions, but never before have I seen the attitude of the student body so turned to work instead of foolishness as it is in this school. The students, generally speaking, are young, but are here for business," he declared while talking about his experience with the students today. He also touched on the warm feeling between the students and faculty, all of which he believed were factors in the students' welfare.

Counties Organize

The meeting of the students from the different counties over the district held their first meetings last evening at the Normal buildings. Officers were elected, plans for entertainments were made and steps for getting together for contests were taken.

A baseball league is being formed between teams from each county and a series of five inning games will be played next week, according to Coach Clary, who will have charge of the league. A basketball league will also be formed, and although it is out of season for basketball, those who are tak-

President Harding Meets Miss Holt And Blind Girls from Lighthouse

The famous "Harding smile," which has endeared many of our citizens to the nation's President, was tender and his voice shook with emotion, as Warren G. Harding, President of the United States, welcomed two blind orphan girls brought to the White House by Miss Winifred Holt, world-wide friend of the blind, and known in many lands as "The Lady of the Lighthouse."

Miss Holt visited the White House with the two blind girls to tell the story of the Lighthouse movement in America, France and Italy, and to ask the President's cooperation in the \$2,000,000 campaign of the Committee for Lighthouses for the Blind. President Harding consented to serve as Honorary Chairman of the Committee and accepted Miss Holt's invitation to visit the New York Lighthouse with Mrs. Harding four days later, and to sit in the "Presidential chair." This chair was made by a blind cabinet-maker of New York, for the use of President Taft, at the first exhibition of work made by the blind, in 1911, and was occupied by him on two subsequent occasions.

ing the course in the theory of coaching will be given some practical experience.

STATE TROOPS LEAVING TULSA RUINS TODAY

(Continued From Page One) committee looked into the plans of fixing the responsibility of the outbreak and bringing the ring leaders to punishment.

Leaders Responsible. At the same time rumors that radical leaders among the negroes, some being the worst element and some intelligent leaders, caused the riot, began to take tangible form with the statement of W. O. Gurley, one of Tulsa's wealthiest negroes; J. M. Adkinson, police commissioner and Barney Cleaver, wealthy negro peace officer. The combined statement of the three men tended to indicate that for some time the negroes had been preparing for race trouble, and that the first shot at the county building Tuesday night when white men who sought to take from the jail Dick Rolland, 19 year old negro bootblack, charged with attacking a white woman, clashed with armed negroes bent on protecting Rolland, was fired by a narcotics crazed negro.

Governor to Act. (By the Associated Press) OKLAHOMA CITY, June 3.—Marital law will be lifted in Tulsa this afternoon, it was announced at the office of Governor Robertson, shortly after noon. The announcement said the governor had not fixed the exact time but that it would be before night.

The two blind girls—Veronica E. Mazicka and Jessie Williams—brought gifts for President and Mrs. Harding which they had made in the Lighthouse weaving and sewing rooms. Although totally blind, these girls support themselves by their labor at the machine and loom. They have a clear mental picture of President Harding. They have caressed with their fingers the features of a small sculptured bust of the President; they have felt the warm, firm clasp of his hand; and they have stored in their hearts the memory of his voice as he said: "If there is anything I can do to set aglow a flame in a soul that is denied the light, God helping me, I mean to do it."

Serving under the Honorary Chairmanship of President Harding are the following officers: Chairman, Franklin D. Roosevelt, former Assistant Secretary of the Navy; Honorary Treasurer, Andrew W. Mellon, Secretary of the Treasury; Treasurer, Lewis L. Clarke, President of the American Exchange National Bank. Contributions may be sent to Lewis L. Clarke, Treasurer, Committee for Lighthouses for the Blind, 111 East Fifty-ninth Street, New York City.

HOW CARPENTIER LOOKS TODAY AS HE WORKS OUT

Georges Carpentier snapped in the gymnasium at Manhasset training quarters.

Marie Louise, Paris creator of stunning millinery, uses huge satin roses of loveliest pink on top and underneath the brim of this lace picture hat. A Joseph importation.

ENID—Government Springs Park and the new municipal swimming pool have been formally opened here. Speeches and appropriate ceremonies marked the opening.

CITY DADS PURCHASE ADA SCHOOL BONDS

The city commissioners in session late Thursday passed a resolution authorizing Commissioner Jones to purchase from the school board \$10,000 worth of school bonds. The money for this purchase is to be taken out of the sinking funds of the city.

The commissioners explain that the bonds for which the sinking funds are held are not due until after 1940. The school bonds are due in 1940. Inasmuch as the purchasing of school bonds will in no wise jeopardize the payment of the city bonds when they become due, the commissioners thought it would be economy to buy and at the same time assist the school board in disposing of the school bonds.

Preparations are under way for several new wells in the northwest territory, though operations are not being pushed. Oil men, on account of the slump in the price of oil, are not rushing to get new production. Work in the county fields will go forward, but development will be much slower than would be the case had oil remained high as it was a few months ago.

The rig of the Abernathy-Lane Trust arrived in Ada Thursday and is being carried to section 8-4-5 where it will be erected on the J. Crane farm. This is a rotary and will be erected at once.

In The Oil Fields

That Ada may have a refinery in the near future is not beyond the possible, according to rumors among some of the oil operators. Inasmuch as there is considerable production northwest of the city and no pipe line facilities, a small refinery at Ada would find a ready sale for the products here at home, it is pointed out.

Preparations are under way for several new wells in the northwest territory, though operations are not being pushed. Oil men, on account of the slump in the price of oil, are not rushing to get new production. Work in the county fields will go forward, but development will be much slower than would be the case had oil remained high as it was a few months ago.
